- 1a* — One can never issue too many commands :) (+)
- 1b* — You transcribed your activity accurately and completely. (+)
- 2e* — Your byte-level navigation is sufficiently correct with appropriate commentary to demonstrate an understanding of the data structure. (+)
- 4d* — You were able to use the information presented to find your way around the file system. (+)
- 4e* — Two commits is a little borderline, but I can see how that remains appropriate. (+)
- 4f* — Submitted on time. (+)
